Patent No. 6309857
GENERAL INFORMATION:
GENERAL INFORMATION:
TITLE OF INVENTION: Nucleotide Sequences Encoding Mammalian Calcium
TITLE OF INVENTION: Activated Chloride Channel-Adhesion Molecules
TITLE OF INVENTION: Activated Chloride Channel-Adhesion Molecules
CURRENT APPLICATION NUMBER: US/09/193,562D
CURRENT FILING DATE: 1998-11-17
PRIOR PRILING DATE: 1997-11-17
PRIOR PRILING DATE: 1997-11-17
NUMBER OF SEQ ID NOS: 47
                                                                                                                                                                                                                                                                                             ATTATGTGGAAGTGGATAGGAGAACTGCAGCTGTCAATAGCC 2766

Fatent No. 6309857

GENERAL INFORMATION:

APPLICATION:

TITLE OF INVENTION: Nuclectide Sequences Encoding Mammalian Calcium

TITLE OF INVENTION: Nuclectide Sequences Encoding Mammalian Calcium

TITLE OF INVENTION: Nuclectide Sequences Encoding Mammalian Calcium

TITLE OF INVENTION: Activated Chloride Channel-Adhesion Molecules

FILE REFERENCE: 18617.0052

CURRENT APPLICATION NUMBER: US/09/193,562D

CURRENT FILING DATE: 1999-11-17

PRIOR FILING DATE: 1997-11-17

NUMBER OF SEQ ID NOS: 47

; Patent No. 630987
; GENERAL INFORMATION:
; PAPLICANT: Pauli, Benedicht U.
; TITLE OF INVENTION: Nucleotide Sequences Encoding Mammalian Calcium
; TITLE OF INVENTION: Activated Chloride Channel-Adhesion Molecules
; FILE REFERENCE: 18617.0052
; CURRENT APPLICATION NUMBER: US/09/193,562D
; CURRENT FILING DATE: 1998-11-17
; PRIOR APPLICATION NUMBER: US/60/065,922
; NUMBER OF SEQ ID NOS: 47
; SEQ ID NO 11
; LENGTH: 795
                                                                                                                                                                                                                                                                                                                                                                                                                                                                    ; OTHER INFORMATION: Variant of Lu-ECAM-1 from bovine endothelial cells US-09-193-562D-11
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          795
